

Proven Integration Process Ensuring Smooth Deployments and Minimal Disruption.

Deploying a new beverage selling solution platform into any modern organization's existing IT framework requires a well-conceived and proven integration methodology. With GreatVines Integration Service the sales gains promised don't come at the expense of other operational efficiencies.

BOTTOM LINE

The cure shouldn't produce symptoms worse than the affliction. Implement a beverage selling solution that works harmoniously within your existing IT infrastructure and realize the benefits you expect from a cloud-based software solution.

Methodology

GreatVines has made a large investment in our integration platforms and we have very strong capabilities. GreatVines deployments adhere to a proven approach for frictionless integration. Focusing on best practices in data management, hygiene and deduplication, GreatVines' replicable process enables integration with:

Our integration experts are experienced at connecting GreatVines with most leading ERP solutions including:

- SAP
- Oracle
- JD Edwards
- MS Dynamics
- and others

Data exchange is also easily established between GreatVines and many popular financial processing and management solutions such as:

- AMS
- Quickbooks
- MAS
- Sage
- Plex

Pull market data automatically into a GreatVines implementation from standard industry data feeds from leading sources such as:

- VIP/BDN/TradePulse
- Nielsen/TDLinx
- IRI
- Client loaded depletion data

Integration Expertise

GreatVines invests significant development resources into interface and monitoring capabilities using leading tools like Pentaho Data Integration hosted in the industry standard, Amazon Cloud. Integrations of all sizes and scopes are handled efficiently via GreatVines' Elastic Jobs Manager, which schedules jobs and monitors results.

Minimal Demands on Internal IT Resources

GreatVines is sensitive to the resource limitations of customers' internal IT teams. With a proven and replicable integration methodology and experts with scores of successful integrations for beverage selling customer organizations, GreatVines ensures customers' IT resources are minimally burdened when it
